Changes noted in welfare system

The Virginia Departmer Welfare announced today the new federal rules an regulations are in effect for November grants to all ADC recipients.

These new regulations include such criteria as stepparent liability, earned income tax credit, and income that exceeds 150% of the standard of need.

In addition, all eligible clients are now required to make a monthly report of all income and circumstances that existed in the prior month. This report then determines their eligibility and amount of grant for the next month.

The first of these reports was mailed by the Department during the last week of October. These reports must be returned to the local agency by November 5. This report will be used to calculate the client's December grant.

The specific ADC rules and regulations are:

1. Earned Income Disregards --these include:

.a $75 earned income disregard for each month's report,

.up to $160 for the care of each incapacitated adult in the assistance unit for the reporting period, and

.$30 and ⅓ of the remainder as earned income disregard.

The disregards are not applied if the individual terminates employment or fails to report monthly withou good cause.

2. Four Month Limit -- Restrict application of the $30 and ⅓ to four consecutive months; thereafter the $30 and ⅓ cannot be applied until 12 consecutive months have passed.

3. Resource Limit -- Limits allowable resources to $600 per family.

4. Income Limit -- Limits family income eligibility to 150 percent of the state standard of need.

5. Lump Sum Payments -- Provides that when a family receives income that exceeds the state need standard they shall be ineligible for the number of months that equals the sum of all income divided by the need standard.

6. Earned Income Tax Credit -- Assumes as month income the amount of the earned income tax credit (EITC) for which as individual is eligible, regardless of whether it is actually received on a monthly basis.

7. Stepparent Liability -- Requires the condiseration of as much of a dependent child's stepparent's income as exceeds the sum of the first $75 earned income disregard; plus the state's standard of need for the appropriate family size; plus amounts paid by the stepparent to persons not living with the stepparent but claimed as dependents; plus payments of alimony or child support to persons outside the household.

8. Strikers -- Prohibit ADC for any family in which the caretaker relative is participating in a strike on the last day of the month.

9. ADC Work Requirements -- Exempts children under age 16 who are in full-time elementary, secondary, or vocational/technical school from requirements.

Exempts parents/caretakers of children under 6 only so long as they are personally caring for the child with only very brief and occasional absences.

10. Monthly Client Report -- Determines the next month's grant.

11. Payments below $10 -- Prohibits payments below $10 to eligible persons, but such persons are considered recipients for Medicaid purposes.

12. Vendor Payments -- Removes the 20 percent limit on vendor payments and allows recipients to volunteer for vendor payments.

13. Adjustments for Incorrect Payments -- Requires prompt repayment of underpayments and collection of overpayments.

14. Alien Eligibility for ADC -- Counts as unearned income the income and resources of an alien's sponsor and spouse for three years after entry into the U.S. $1,500 is disregarded from the alien's income during this three year period.

RECOGNIZE THESE CHARACTERS? On the far left, with a look of authority is none other than Appomattox Mayor Ronnie Spiggle; center front, that proud bobo is Judy Volturo of the Appomatox Town Office; right, with the white dress and equally white face is Bobbie Mullins of the Appomattox Town Office. In the rear, Town Manager Bill Britton 'managed' to find an outlandish hairdo and glasses before the four of them set out for visits around town on their lunch hour on Friday, October 30.

Gasoline use declines

Gasoline use in Virginia during August dropped 3.3 percent as compared with August 1980, but diesel fuel consumption in the Commonwealth has set an all-time high according to statistics released today by the State Office of Emergency and Energy Services (OEES).

In July 217,279,000 gallons of gasoline were consumed in the State. That's 7,402,000 gallons less than the 224,681,000 gallons used in August, 1980.

The OEES motor fuel tally shows that August diesel fuel use was up 30.1 percent over August, 1980. This August, 33,733,000 gallons of diesel fuel was sold in Virginia as opposed to the 25,912,000 gallons purchased in August, 1980.

"The diesel figures seem to confirm our belief that there is a rapid increase in the number of diesel-powered vehicles on the State's highways," said Allan Lassiter, OEES Transportation Engineer. "Gasoline use was down over seven million gallons: diesel was up about eight million gallons; so we've essentially experienced a slight overall increase in fuel use during August."

The August figures show that gasohol sales in the State totaled 357,000 gallons, or 1,000 gallons less than last month.

The State's motor fuel use statistics are derived from the Division of Motor Vehicles monthly fuel sales records.

A partially overcast sky and chilly breezes didn't dampen the spirit of the joint celebration of the Appomattox County Volunteer Rescue Squad's 20th year of service in this county and the first birthday of WTTX's broadcasting under new ownership.

Dave Johnson, Scott Walker, and Joe Johnson of WTTX were kept busy at the Triangle Plaza Shopping Center Remote Broadcast on Saturday as they awarded prizes from various businesses and introduced various musical groups who provided entertainment throughout the day.

The Rescue Squad's display of scrapbooks and pictures gave visitors the opportunity to note the growth of the unit through the years.

Many items in this ad carry a reference retail price. This reference is intended to provide a guide to the range of retail selling prices in our selling area and may be useful in identifying different units of the same manufacturer. An item's reference retail price is either the manufacturer's suggested retail price or our determination of its full retail value. Lowe's prices are competitive with those of other retail outlets (home center, retailers (department stores, specialty shops, and other non-discount sellers) in our selling area. While we believe our reference retails do not appreciably exceed the highest retail prices at which sales are made in our selling area, we cannot assure you that our reference retail prices, as described above, represent the prices in every locality in which Lowe's sells merchandise. Lowe's prices may be lower than selling price. This merchandise is offered at the selling price except during a special sale. The purpose of showing a reference retail price (or irregular price) is to assist you, our customer, in making a knowledgeable and better informed buying decision.
